CONTENTS OF THE ENCLOSED NEWSLETTER

World law: an old illusion? (p.1)

World law has not been realised up to now. Must it remain an illusion? We believe, if mankind is to survive, it must create it.

World Citizens' activities

On p. 2 we bring short news about World Citizens' activities. One can find them also in French or English on the websites or at the addresses we mention.

"Mind Control", alias: torturing on a distance (p. 3 & 4)

In the enclosed article we mark several websites where information can be found about this subject. We shall also communicate postal addresses to persons asking us to do so.

Empoverished uranium (p.5)

In the bulletin of Maurice-Eugène André, a Belgian nuclear specialist, we read an interview with Major Doug Rockke, a nuclear specialist who participated in the Gulf wars and got contaminated there. According to both men the situation is beyond words: several areas would remain contaminated for millions of years if no proper action is taken.

Manifesto Against Conscription and the Military System (p. 6)

This manifesto dates from 1930 and refers to another manifesto, from of 1926, emanating from the Humanists of the Twentieth Century. Both texts, which the Gandhi Centre reminds us of in its bulletin, were signed by worldwide known persons, the names of whom are mentioned below the page.

In short (p. 7 & 8)

- Heiner Gehring, a psychologist who wrote books about Mind Control technologies, died from cancer at the age of 41. According to Ruth Gill he was probably murdered by secret radiation.
- Andreas von Bülow, previous MP and Minister, in his book "In Namen des Staates" (In the Name of the State), describes how factions of secret services got mixed with organised crime and how they used money from drugs trade to finance their covert actions. Bülow even pretends that they are involved in terrorist activities...
- Last October, in Washington, a manifestation was organised by Mind Justice against the secret use of a whole of anti-personnel radiation weapons. In November, in London and Leeds, the Christians Against Mental Slavery organised encounters of individuals targeted by such weapons and of other protesters against such crimes.
